# HOW TO PLAY LOTTO AND FANTASY 5

# LOTTO

Pick up a selection slip at any on-line retailer. Choose your six lucky numbers, 1 through 42. You can play up to five sets of numbers on each slip. Each set costs \$1. You can play each set up to 10 consecutive drawings.

Next, decide how you would like to collect the jackpot if you win. Would you like to collect the entire jackpot in 20 equal annual payments (Original Annuity) or approximately half the jackpot in one lump sum (Cash Value)? Mark the appropriate box at the bottom of the selection slip.

If you don't want to pick your own numbers, ask the clerk for a Quick Pick Cash or a Quick Pick Annuity. The Lotto terminal will randomly choose six numbers for you.

Or play both ways — choose your own numbers and play a Quick Pick on the same selection slip. Simply mark the appropriate box.

If you match three, four, five or all six of the six numbers selected during the Wednesday or Saturday night televised drawing, you're a cash prize winner.

MATCH	PRIZE	ODDS
All 6 out of 6	Jackpot	1:5,245,786
Any 5 out of 6	2nd Prize	1:24,286.05
Any 4 out of 6	3rd Prize	1:555.11
Any 3 out of 6	4th Prize	1:36.74
Overall Odds		1:34.4

Match all six of the six numbers drawn, in any order, you win the Lotto Jackpot. If other players also match the winning numbers, you'll share the Jackpot with them in equal amounts.

Match any five numbers and you win Second Prize. Match any four numbers and you win Third Prize and if you match any three numbers, you take home \$2.

The size of the jackpot, second and third prizes is determined by two things:

1. The number of tickets sold.
2. The number of winners for each prize.

The size of the jackpot is also affected by the number of rollovers. If no one wins the jackpot for a given drawing, that amount is added to the next drawing's jackpot until there is a winner. The more rollovers, the bigger the jackpot.

PRIZE CATEGORY	SHARE OF PRIZE FUND
Jackpot	69% (after Fourth Place prizes are paid)
Second	10% (after Fourth Place prizes are paid)
Third	21% (after Fourth Place prizes are paid)
Fourth	\$2.00 each

Lotto tickets may be purchased from 6 a.m. to 11 p.m. any day of the week except Wednesday and Saturday, when they can be purchased from 6 a.m. to 9:30 p.m.

Pick up a selection slip at any on-line retailer. Choose your five lucky numbers, 1 through 35. You can play up to five sets of numbers on each selection slip. Each set costs \$1. You can play each set up to 10 consecutive drawings.

If you don't want to pick your own numbers, ask the clerk for a Quick Pick. The Fantasy 5 terminal will randomly choose 5 numbers for you.

Or play both ways — choose your own numbers and play a Quick Pick on the same selection slip. Simply mark the appropriate spot.

If three, four or five of your numbers match the numbers drawn in the Tuesday or Friday night televised drawing, you're a cash prize winner.

## TICKET TIPS

Playing it safe is always a good idea. Whichever game you play, keep your ticket(s) in a safe place until the drawing. You must present it to claim your prize. To further protect yourself, be sure to sign it as soon as you get it. Then only you can cash it in.

All winning tickets for both games must undergo a thorough validation process. So in some cases, payment could be a few hours.

If you have a winning multi-drawing ticket that is still eligible for future drawings, an exchange ticket will be issued to you when you claim your prize. Or, you may wait until all of the drawings on a given ticket have been played before you pick up your cash.

You have 180 days from the date of the drawing to claim your prize winnings.

## WHEN YOU PLAY, WE ALL WIN

After prizes are paid, thirty-seven and a half percent of every \$1 spent on a Lotto or Fantasy 5 ticket goes to work all over Arizona, including local transportation assistance and cultural projects. Plus, with approval by the Legislature, county governments get assistance with multiple expenditures in health, education, welfare, economic development and public safety.
